

# Maryland Directory of Schools

Teachers carry on the instructional program at school with the support of staff who provide the environment for teaching and learning. This handbook includes a statewide directory of faculties and their support staff because the academic program and its renewal are the business of the Association chapter at each school. Broadly defined, faculty chapters are the basic building blocks of the Association. Communication with and between them is important for the success of the Association's program of advocacy and service. Maryland's public schools are listed here alphabetically by county and the City of Baltimore. *(Please send changes and corrections to Carole Masciarelli, MSTA Center for Business, Policy and Operations, 800/448-MSTA x3611, cmasciarelli@mstane.org.)*
